

Kids' Shoe Sizing

For accuracy, we recommend printing this document at 100% on 8.5"x11" paper – full size.

Let's Get Their Size

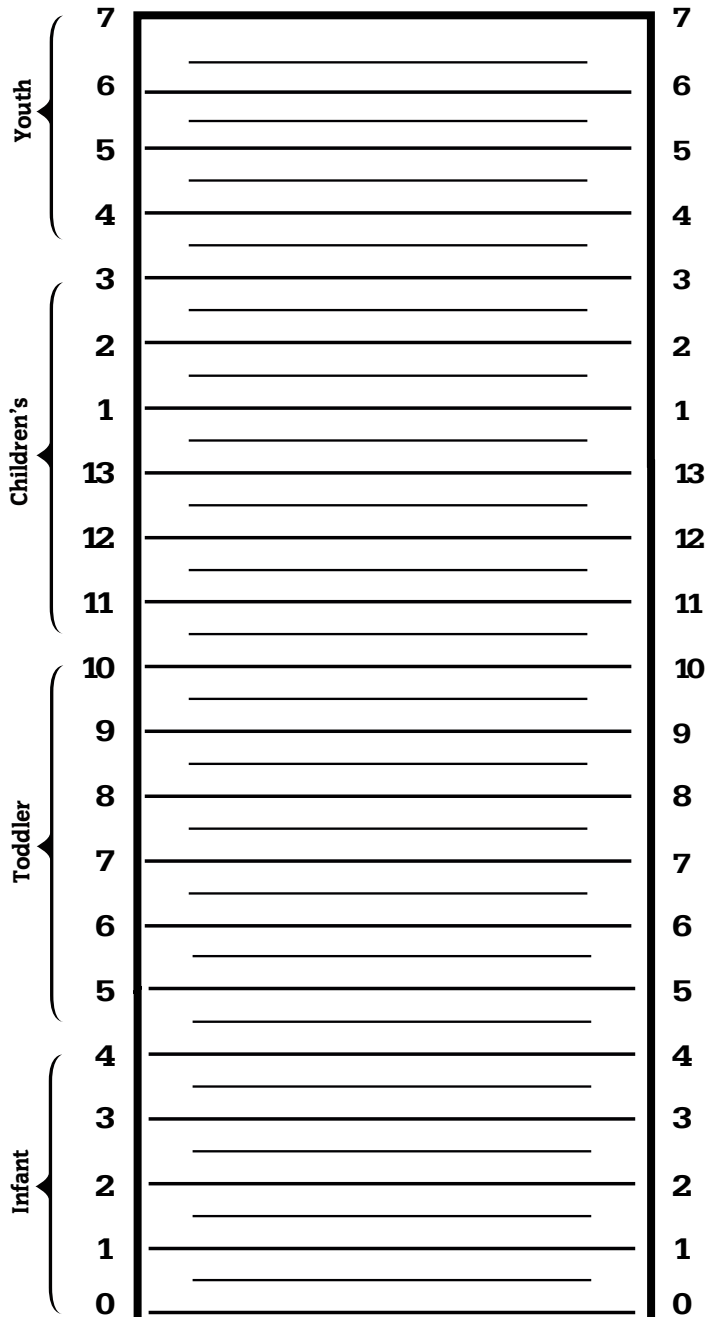

Place your child's heel along the solid line at the base of our chart along the text "Place Heel Here."

- Make sure your child stands up straight and applies weight to the foot being measured.
- Your child's big toe will fall on the line to indicate his or her correct size. (The shorter lines in between indicate half sizes.)
- We suggest measuring both feet, as often times they will be different. As a rule of thumb, go with the larger size.

ACCURACY CHECK:

To ensure correct printing size, **place a credit card here**. If it fits, the chart was printed correctly.

REMINDER:

When using this chart to determine size, remove shoes and place chart on a solid surface.
